Targeted participants receive custom private offer(s) generated by automotiveMastermind®'s EEQ logic, which can be redeemed when leasing or purchasing an eligible vehicle, as outlined below.

- Program Administration:** The customer uses bonus incentive amount towards their next Volkswagen, and it is the dealer's responsibility to ensure the customer receives the benefit of the bonus by disclosing the incentive on the sales agreement. Upon proper reporting and claim submission according to program rules, the dealer will be paid.

  - To support the intent of this customer bonus, each claim will be reviewed against our original campaign data as well.
  - The primary incentive amount is not transferable to other models. If a MY24 Tiguan is the primary incentive model, in order to receive the primary incentive amount, any model year Tiguan must be purchased (model year agnostic).
  - Each Unique Redemption Code may only be used on a maximum of two sales.

Examples below:

## Target Achievement Bonus

Program ID	Published	Program Start	Program End	Dealer Review Ends
V25UTA08	8/1/2025	8/1/2025	9/2/2025	10/31/2025

**Program Description:** To support Volkswagen's sales performance goals, Volkswagen has launched the Target Achievement Bonus (TAB) which will pay dealers and/or sales managers once they achieve their monthly sales target, as well as two qualifiers: timeliness of Sales Reporting and Allocation Acceptance in OMC.

1. **Program Administration:** Volkswagen dealers will earn \$200 per eligible retail sale delivered and reported within the program period when a dealer achieves their sales target in a given month. The monthly sales target is based on the lower of two calculations.

a. **Performance Objective Methodology:**

**Calculation A: Weighted Share of Nation**

**Calculation B: Weighted Share of State**

1. Based on Competitive Group Registrations from Rolling 12 Months (June 2024 – May 2025)
2. Based on Total Sales (KOS 0, 3, 5) from Rolling 12 Months (August 2024 – July 2025)
3. Average of State's Share of Nation Sales and Dealer's Share of State Registrations
4. Final Dealer Objective will be adjusted to 70% of opening ground stock (Status 50) if Calculation A or B results in higher than 70% of opening dealer stock. Minimum sales objective is 1.

Your Sales Operations Manager (SOM) will provide your dealer's sales target. The Target Achievement Bonus report will also be published on the VW Hub under All Apps > Reporting > My Dealership Reports.

- b. **Sales Reporting (OMC):** Dealers must report **90%** of their monthly sales within two calendar days of the delivery date.
  - i. Saturdays, Sundays and Holidays will be excluded from the timing of delivery to RDR. Therefore, sales on Thursdays have until Monday to be reported, and sales on Friday, Saturday and Sunday have until Tuesday to be reported. Regardless of the holiday or weekend, sales must be reported by the end of the sales month as outlined within Incentive Provisions.
  - ii. Holidays considered are Federal Holidays. If one of these holidays is observed on a Monday, one extra day will be allotted for sales from the prior Thursday to Sunday period. Holiday Monday sales need to be reported by Wednesday.
  - iii. If a dealership fails to achieve this target in the program month, the dealer can earn achievement in this target if the dealer achieves the target for the following month (Sales Reporting target catch back only.)
- c. **Allocation Acceptance (OMC):** **Acceptance rate will be waived until further notice.** Volkswagen reserves the right to introduce this qualifier in future program periods based on overall business conditions.
  - i. Allocation will be measured based on the number of vehicles accepted through the monthly or bi-monthly MBO & FSO process, divided by the total number of vehicles offered through MBO & FSO. Any unit not accepted, not actioned, or declined in OMC will be considered a decline.
  - ii. Vehicles accepted outside of MBO or FSO will not be counted as part of a dealer's acceptance rate.
  - iii. Dealer's allocation acceptance will be adjusted if it is found that dealers are unassigning or trading away vehicles that were previously accepted.

2. **Payout Matrix:**

Payment Per Unit	Payment	Payout Recipient
\$100	Payment 1	Direct Pay to Dealership
\$100	Payment 2	<b>Option1:</b> Direct Pay to Dealership (all or portion) and / or <b>Option 2:</b> Direct Pay to Sales Manager (all or portion)

- All program payments, by default, will be paid to the dealership.
- Payments will be provided in two separated events.
  - Payment 1 is paid the full week after the sales close and when results have been finalized.
  - Payment 2 is paid the week following Payment 1. It is the dealer's discretion if Option 2 - Sales Managers(s) are paid directly.

3. **Eligible Vehicles & Sales Types:** New, unused, Volkswagen models.

MY21-MY26	Counted in Final Sales	Pay
Kind of Sale – 0 (Retail)	Y	Y
Kind of Sale – 2 (Total Loss)	N	N
Kind of Sale – 3 (Customer Mobility Program)	Y	N
Kind of Sale – 5 (VFI / "Fleetail")	Y	Y
Kind of Sale – 5 (Sales to Daily Rental)	Y	N
Kind of Sale – 0 (Dealer Employee Purchase Program units)	Y	N

**DOUBLE COUNTER: MY25 Tiguan**

- Payment 2 Options:** Dealers will have two options, referenced below, with regards to the final \$100 per unit payment. Dealers must coordinate payment 2 with your Volkswagen Sales Operations Manager (SOM).
  - Option 1: Direct pay to Dealership:** All program earnings will be paid directly to the Volkswagen Dealer. These earnings can be disbursed at the dealer's discretion.
  - Option 2: Direct pay to Sales Manager via Debit Card:** A portion of the earnings, as directed by the dealer, will be deposited directly to Sales Managers via debit card at the end of the program period. If you don't currently have a debit card, one will be issued and mailed. Once the debit card is received and registered online by the Sales Manager, earnings will be loaded to the card.
    - Sales managers who are not certified, or whose certification status has expired, can begin earning in the month after their certification is achieved or reinstated. There will be no retroactive earnings for sales made during the time the sales manager was uncertified.
    - Volkswagen will issue a 1099 at year-end for all money earned and paid directly to the Sales Manager via Debit Card. Sales Managers should ensure mailing address is accurate.
    - To ensure Option 2: Direct Pay to Sales Manager, Annual Certification Requirements must be complete **AND** Continuous Learning (CL) must be completed by the "REQUIRED BY" date in the Certification Resource Center to be eligible for the next sales month.

5. **New Dealers (Open Points):**

- Opening partial month:** New open point dealers will not be eligible for the program until their first full month of business.
- Objective Month 1-3:** New open point dealers will not be eligible for the program until their first full month of business. For the first three months, their objective will be calculated based on following calculation: 50% of the average monthly Volkswagen registrations within their PAI over the previous rolling 12-month period.

**Example**

VW Registrations over Rolling 12 Months in the Dealer's PAI = 900  
Monthly Average (900 / 12) = 75  
Dealer Objective (75 x 50%) = 38

- Objective Month 4+:** The standard dealer objective methodology will be used with an adjustment to the dealer's sales share of the nation. The dealer's sales share of the nation will be determined by calculating the dealer's total sales average during their full sales months in operation. As the segment size data is a rolling 12 months regardless of the dealer's open date, no change is required.
- Buy/Sell Dealers:** The incoming dealer of a buy/sell agreement will immediately become eligible for the program and will inherit the objective and eligible reported units of the outgoing dealer. For future months, the incoming dealer's sales data will be combined with the outgoing dealer's sales data for consistent history in both sales and industry registration data.
